

FRENCH LINER CHANZY IS SUNK IN MEDITERRANEAN; 144 LIVES REPORTED LOST

Trans-Atlantic Steamer "General Chanzy" a Total Wreck Near Palma Majorca.
[BY ASSOCIATED PRESS.]
Palma Majorca, Feb. 11.—The French trans-Atlantic steamer "General Chanzy" from Marseilles is wrecked off the north coast of this island. It is stated that only a single passenger was saved out of all on board. The vessel is a complete loss.

Report Confirmed.
The loss of the French steamship "General Chanzy" has been confirmed. She carried between eighty and ninety passengers, only one of whom was saved.

The owners state that the ship carried seventy-five passengers, besides a crew numbering 60 or 70.

FIRE AT EAU CLAIRE DID \$45,000 DAMAGE IN HEART OF CITY

Loss on Pythians' Hall Amounted to \$17,000—Will Cost \$25,000 to Re-Build Theatre.

Eau Claire, Wis., Feb. 11.—The result of a fire which started in a theatre here last evening and which spread to neighboring buildings and threatened the Merchants' Lumber plant, "The Pythians" hall, a two-story building and contents are a total loss estimated at \$45,000. The hall is owned by the Pythian Castle association. Judge P. Winslow's wall-paper shop was damaged to an extent of about \$6,000 and is insured. The United theatre on the first floor suffered a damage of \$25,000 and is covered by insurance.

ILLUMINATING TALK ON PUBLIC HEALTH

Was Given by Dr. H. L. Delaney of Beloit Before the Knights of Columbus Last Evening.

That fresh air is one of the most efficient curative agents available to man and the greatest of all enemies of disease, was the theme emphasized by Dr. H. L. Delaney of Beloit in his lecture before a seventy-five members of Carroll Council No. 596, Knights of Columbus, last evening. The speaker entered upon a detailed discussion of pneumonia and tuberculosis and declared them to be preventable diseases which owed their prevalence to a large measure to the overcrowding of civilization, such troubles not being found among savages in tropical climes nor among the Arctic races whose lives are spent in the open air. The speaker entered upon a consideration of the means of combating tuberculosis and made the prediction that the present generation would see the decline of this scourge to a point where it would be as rare as malaria. He attacked the popular theory that tuberculosis is hereditary, explaining its continuity in families as the plain result of contagion. Statistics which he presented showed that an appalling total of 20 per cent of all deaths was to be ascribed to the White Plague. The economic loss each year would approximate the national debt and the doctor deplored the lack of legislative interest in providing for adequate combative measures. In comparison with the importance of a crusade against this scourge, the tariff, trust, and industrial questions, so much before the people, paled into insignificance. He closed with a plea for the strengthening of public opinion and urged his hearers to lend their aid in every possible way to the forces now at work.

Dr. Delaney is a most entertaining talker and with his easy, conversational style, he held the closest attention of his audience throughout the lecture.

A delicious luncheon was served and this was followed by a general discussion of the evening's topic.

THOMAS A. EDISON IS SIXTY-THREE

Electrical Wizard Enjoys Best Of Health And Will Soon Resume Labors On Storage Battery.

Port Myers, Pa., Feb. 11.—Thomas A. Edison, the inventor, quietly observed his sixty-third birthday at his winter home here today. No special plans were made for the celebration of the anniversary. Mr. Edison is apparently in the best of health and spirits. He expects to remain here with his family until April, when he will return to his home and workshop at West Orange, N. J., to resume his labors for the perfection of a storage battery to be applied to street cars.

NOTED SLEUTH IN SHADOW OF DEATH

Former Supt. Of Police Thomas Byrnes Of New York Is Critically Ill.—His Remarkable Career.

[SPECIAL TO THE GAZETTE.]

New York, Feb. 11.—Ex-Superintendent of Police Thomas Byrnes is seriously ill at his home in West Seventy-seventh street and it is feared by the doctors and the members of the Byrnes family that he will not recover from his illness, which is described as acute indigestion. The patient is nearly seventy years old and his constitution, one remarkably robust, no longer enough to resist disease or to throw off its debilitating effects.

Mr. Byrnes retired from the police department in 1895, after more than thirty years of efficient service. After his retirement he had a private detective agency for a time, but soon he abandoned that business and retired into private life altogether, living quietly at his handsome home, with his wife and his two daughters. During his long career Mr. Byrnes accumulated a handsome fortune which he increased considerably by occasional "flyers" in Wall Street.

Although fifteen years have elapsed since Mr. Byrnes retired from the metropolitan police department the memory of his wonderfully efficient services is still fresh and stand out in bold contrast to the deplorable inefficiency of the police department at the present time. During Byrnes' regime he was so feared by the crooks, that many of them, who were notorious, emigrated to other parts of the world; while at the present time the city is overrun with criminals of every kind and the police department seems helpless and absolutely unable to find any clue in scores of the most startling and heinous crimes.

Byrnes was appointed a policeman on December 10, 1862. He served as patrolman five or six years and accumulated a large amount of knowledge which later became of great value to him. In due time he became sergeant, which position he held about ten years. He made a study of criminals and crimes and even when he was but a sergeant, knew nearly every crook in the city. He first attracted attention by saving the lives of three persons at a fire and a short time after he was made captain. The Manhattan Bank robbery offered an opportunity for the exercise of his remarkable genius as a detector of crime and criminals, only a few months after his appointment to a captaincy. He landed the robbers in prison and they were convicted in due time. His reward was an Inspectorship. He was put in charge of the detective bureau and built up that branch of the service to a standard of efficiency which it had never before approached and which it never regained after he left the service. He continued the study of criminology and personally investigated and studied every case of crime in the city. He came to know New York as no other man had ever known it and he had a way of turning up at the most unexpected times and places. The crooks became filled with superstitious fear of the man and it is not surprising that in the course of time Byrnes became the hero of countless romantic and sensational stories and yarns, which went from mouth to mouth and made Byrnes appear endowed with almost supernatural powers of penetration and divination.

Byrnes proved himself a man of exceptional energy, ability and determination. He never shrank from hard work and often would work on important cases for twenty-four hours in a stretch. His persistence was proverbial and he was never known to abandon a case until he had exhausted every resource and had sifted the clues to the very bottom.

Although he had surrounded himself with the best detectives obtainable in the country, he never depended upon them altogether, but did most of the work himself.

It was under his regime that the so-called "dead line" was drawn for the protection of the financial district in the lower part of the city and it was Byrnes who originated and used the "Third Degree" in the most effective manner to obtain confessions from suspected offenders. His methods were criticized by some persons as too severe and even inhuman, but there was never a complaint of injustice or the slightest suspicion that he ever used tremendous power and influence for the purpose of grafting. Mr. Byrnes was made superintendent of the entire police force in 1892 and filled that position ably and to his everlasting credit until he retired from the service in 1895.

The record of Mr. Byrnes' work during the thirty years of his connection with the New York police department would make interesting reading matter. Many of the cases which he handled with consummate skill and in which he not only apprehended the perpetrators of the crime but brought about their conviction and punishment, have become famous in the annals of crime. His work was full of surprises and never lacked in drama. Many of his experiences and achievements have been utilized by fiction writers and authors of detective stories and have thus become familiar to a large circle of readers.

NEWS ITEM—Argentina has just closed a contract in the United States for two war vessels to cost a total of \$29,000,000.

FULLER IS ACTIVE AT SEVENTY-SEVEN

Chief Justice, Who Celebrated Birthday Today, Not Likely To Retire For Several Years.

Washington, D. C., Feb. 11.—Chief Justice Fuller today celebrated his seventy-seventh birthday and was the recipient of a flood of congratulatory letters from his colleagues on the supreme bench and from many other friends in public life. Although he has been eligible for retirement for seven years, it is not regarded as likely that the Chief Justice will take advantage of the privilege for some time at least. He is apparently in excellent health, and the prevailing opinion here is that unless his health should suddenly fail, he will probably remain on the bench until after the next presidential election, when the question as to whether there is a possibility of a Democratic succession will have been determined.

Chicago, Feb. 11.—Extensive arrangements for the decoration and illumination of Chicago on the occasion of the thirty-first triennial convocation of the Knights Templar of the world are being worked out under the direction of a local committee. The convocation is to be held during the second week of August. Over \$50,000 will be expended for decoration and illumination purposes alone, and every hotel in the city has been engaged to the limit for the accommodation of the thousands of members, who will come from all parts of the country with their families.

\$20,000 DAMAGES IS JURY VERDICT

In Personal Injury Action Brought by F. Driscoll Against Allis Chalmers Co. of Milwaukee.

Milwaukee, Wis., Feb. 11.—A verdict recommending that F. Driscoll, a plumber, be awarded \$20,000 for injuries sustained on January 31st, 1908, while Driscoll was working in a trench at the Allis-Chalmers new power plant, National and 54th avenue, was returned by a jury in Judge Tarrant's court this morning. Driscoll was struck in the back by a sixty-pound block of wood which another workman, Carl Rasmussen, let fall while walking on a plank runway over the trench. The blow paralyzed Driscoll and he is not able to walk.

The social development of the rural community is one of the chief subjects to be discussed at the conference.

FRANK KLUG RECOVERING FROM SERIOUS ACCIDENT

Janesville Man Who Was Hit on Head by Sledge in Better Today.

Beloit, Feb. 11.—The condition of Frank Klug is encouraging. He is a blacksmith and was hurt by a helper who was welding a sledge at the Beloit Iron Works yesterday. It is strange that his head was not crushed. He was watching his work and leaned too far over it, when the sledge caught him on the top of the head. He was taken to a hospital in an unconscious condition but rallied during the afternoon.

GOVERNMENT OF MADRIZ DOOMED?

U. S. STATE DEPARTMENT SO INTERPRETS DISPATCHES.

EXPLOSION ON "VIRGINIA"

Off Coast of Cuba Yesterday Injured Two "Gunners" Mates "White Slave" Bill Passes the Senate.

Washington, D. C., Feb. 11.—The State Department officials were greatly interested in last night's news from Managua that Matagorda and Rosas had been captured by the revolutionists. The capture of the steamer "Managua" by the revolutionist sympathizers is regarded as a very serious loss to the Madriz government. The whole situation appears to be distinctly in favor of the revolutionists and it is believed here that the end of the Nicaraguan government under Madriz is rapidly approaching.

Hope Not Yet Lost

Bluefields, Nicaragua, Feb. 11.—From details of the recent battle at Santa Clara, just received, it appears that the defeat of the revolutionists was due to a misinterpretation of orders. Matus' plan was for the Bluefields force to keep the government troops engaged until reinforcements could arrive. It was construed to mean a change of position, and in an effort to do so Matus was caught so that he was taken by a heavy fire of the Maxim guns of the enemy. The error was discovered too late. Matus was killed and revolutionists retreated to Managua, where Zetela with reinforcements arrived yesterday. Upon the arrival of the American sharpshooters being recruited at Panama the revolutionists will again begin a forward movement.

Printing Cans Adjourned

Washington, D. C., Feb. 11.—Justice Wright today in the supreme court of the District of Columbia granted an adjournment of two weeks in the mandamus proceedings against the joint congressional committee on printing.

Battleship Explosion

An explosion which caused the injury of two gunners' mates occurred yesterday about the battleship "Virginia" while the latter was firing a salute off Guantanamo, Cuba.

Senate Passes Bennett Bill

The Bennett "white slave" bill passed the senate today, practically in the same form as it was passed by the House.

CATHOLIC KNIGHTS ARE TO CELEBRATE

All Local State Lodges to Commemorate Founding of Order on July 14.

Neenah, Wis., Feb. 11.—According to advice received by the Neenah and Menasha lodges of the Catholic Knights, the local lodges of this order will hold a picnic all over the state on next July 14, to commemorate the 25th anniversary of the organization of the order. Several of the head officers reside here.

Counterfeiters at Work

Whether or not there is a counterfeit gang at work in Neenah is a question which government officials will soon answer, it is believed. For some time Neenah and Menasha have been flooded with spurious ten cent and twenty-five cent pieces. The coins are new but upon close examination are found to be crudely made. An investigation will be completed to determine, if possible, where the coins are being made.

Kreiger Band to Meet

It has been announced that the State German Kreiger band, or organization of German war veterans who assembled here in state convocations are being made by the local Germans for the event. It is expected there will be 20,000 visitors in the city at that time.

Arrest Paroled Boys

George Peterson of Oshkosh, and William Zick of Neenah, recently paroled from the industrial school at Waukesa, were arrested here, charged with the burglary of two stores at Oshkosh. When arrested they were about to take a train for Milwaukee where they expected to meet a third paroled boy, and the three planned to become armed bandits. They were heavily armed with revolvers.

MR. AND MRS. BLACK HERE FROM MINDANAO

Arrived in Janesville Today for Visit at Home of Latter's Brother, J. A. Granger.
Mr. and Mrs. Robert F. Black, missionaries at Davao, Island of Mindanao—the Moro province of the Philippines—arrived here today for a visit with Mrs. Black's brother, J. A. Granger, 1115 Ruger avenue. They had hoped to be present at the Congregational home-gathering last evening but were unable to make the railroad connections.

MRS. GERTRUDE GRANGER BLACK

Mrs. Black was formerly Miss Gertrude Granger of this city and this is her first visit here since her marriage in the Philippines in the autumn of 1903. She came back to the United States last fall on a year's furlough, leaving the islands somewhat earlier than originally anticipated on account of a touch of malarial fever, and has since been with relatives in Minnesota.
The towns in the district of Davao are inhabited by civilized natives, most of them Ilocos Catholics, but two-thirds of the population of the district are pagans. The chief of the district is Mr. and Mrs. Black and is in the mountains, twelve miles inland. The interior is mainly an undiscovered country but the savage Mohammedan Moros who cause the government so much trouble are mostly located on the other side of the island.
The work which the Janesville visitors are doing there has been left in the hands of a medical missionary and an intelligent and capable native evangelist. Despite the fact that those who are admitted into the church are required to live the Christian life quite as strictly as in this country, quite a number are qualifying and the mission has grown to such dimensions that additional assistance will be required. Some of the converts come from the independent Catholic church which was long ago cut off from Rome. The most hopeful work, however, is among the children of the pagan tribes, 150 of whom have been drawn into the mission's circle of influence.
The conditions of life in that far country, the available food, and so forth make it impossible to safeguard the health at all times or maintain the same standard of living to which Americans are accustomed, and the climate has its drawbacks, but Mr. and Mrs. Black are too deeply engrossed in their work to find fault with their environment. The governor, secretary, and treasurer of the province and several teachers are located in Davao, so that it has its little American colony the same as other frontiers of civilization. The Blacks are going back in May.

Compulsory Reading.
Some of the ministers are asking again why the church attendance is small. Perhaps it is because the Sunday papers are so large.

VICTORS IN THE JUNIOR GAME AT "Y" YESTERDAY

Snyles' Team Beat Hemming's and Dalton's Five Defeated Atwood's.
Games in the schedule of basketball games of the league of the Junior Y resulted in victories for Snyles' team, which vanquished Hemming's team 2 to 1, and Dalton's five, which beat Atwood's quintet by a score of 7 to 4. H. S. BASKETBALL TEAMS ARE PLAYING

Janesville and Albany Matched Again Each Other at Local School This Afternoon.
At five o'clock this afternoon the basketball game between the Janesville high school squad and the Albany high school five will be played in the gymnasium at the local school. The Bower City players have been successful in their season so far and they are striving to keep their record in order that they may take part in the state tournament at Appleton. At present there appears to be nothing to hinder them from accomplishing the feat, unless by carelessness or accident they lose the game this afternoon or the match they are to play with the Wausau team. Albany was overcome in a contest at Evansville, and Evansville suffered defeat here last Friday, so all indications are that the Bower City players will again be victorious. Janesville's lineup will be: Wilkinson, center; Murphy (captain), and Korst, forwards; Green and Muelbom, guards.

PLEASANT PARTY AT HOME OF MR. AND MRS. TIMMONS

Town of Rock Couple Entertained Friends in Honor of Misses May and Myra Cristy.
(Special to the Gazette)
Rock, Feb. 11.—Mr. and Mrs. John Timmons entertained a company of twenty young people at a dinner Monday evening, the occasion being the birthday anniversary of the Misses May and Myra Cristy. Following the elaborate repast several hours were devoted to dancing. The guests departed, leaving the hostesses many remembrances of the occasion.
Mr. and Mrs. Arnsworth and baby of Appleton, Wis., have been visiting their cousin, Mrs. M. S. Kellogg. Truman Davis of Evansville has purchased Sidney Richard's farm and expects to move here in the spring.
Mrs. Olin returned from Omaha last Tuesday and is visiting her daughter, Mrs. Keith.
Lawrence Behnman has traded his farm for a house and lot in Janesville. Elmer Padewell is attending German school in Janesville.
W. J. Atkinson will move next month to Henry Crane's farm.
Mr. Arnsworth and family have moved here from Appleton and will live in John Hugin's house.

COMMERCIAL CLUB WILL HELP SECURE NEW AUTO FACTORY

Appoints New Members of Committee to Sell Stock—Will Push Project Vigorously.
At the annual meeting of the Commercial club, held at the Myers House last evening, another and important step forward was taken in the matter of securing the much desired Chicago commercial automobile factory for Janesville. The meeting, which was preceded by the usual banquet, was well attended and when those business men who had investigated the proposition had told what the factory would surely do for this city, enough enthusiasm was aroused to make possible the appointment of four new members to the committee now seeking to dispose of the stock.
As a result of the meeting, the entire committee, including the new members, William McVicar, George S. Parker, Albert Schaller and Dr. C. G. Dwight are making a thorough canvass of the city in an effort to dispose of the remaining half of the \$50,000 in stock, the entire subscription of which is necessary before the company will consider this city as a location. From all reports, much progress is being made and it is now fairly sure that the auto company can be induced to come to Janesville.
Other questions were also considered at the meeting last night, among them the proposition of merging the club in the new organization recently launched. This, however, together with the election of officers, was postponed until the next session.
The project of securing George P. Irving, the expert on municipal affairs and an adept in town boosting, to speak under the auspices of the club, was also brought up by J. S. Piffard, and after J. L. Bostwick had told of his success in other Wisconsin cities, it was decided that arrangements be made with him and a date for the address set.

FORMER JANESVILLE PRIEST PASSED AWAY

Father McFaul, Pastor of St. Patrick's Church from 1852 to 1856, Died in St. Louis.
Rev. Fr. McFaul, who had charge of the pastorate of St. Patrick's church in this city during the years from 1852 until 1856, died last week in St. John's hospital, St. Louis, Pa.

THE LATE REV. FATHER MCFUL
The late Rev. Father McFaul was the oldest priest in the city of St. Louis and one of the oldest in the country. He had been practically retired from the priesthood for over a quarter of a century. Fr. McFaul will be remembered by a number in this city. While in St. Louis about a year ago Charles Connel and Edward Jerg of this city called on the venerable churchman and had a very pleasant visit with him. The accompanying cut was made from a picture of Father McFaul which they took at the time. Father McFaul secured the site of Mount Olivet cemetery.

Court Dress of Laureate.
Tennyson's court dress, when he received the laureateship, did not cost him much for it was the same court dress worn by Wordsworth, who in turn had it from the old poet Rogers, and it is still in the Wordsworth family. It is a wonder how Tennyson and Wordsworth got into it, for Rogers was a little fellow. Tennyson had no passion for courts, and so he went in second-hand to save cost.

NOT COMPREHENDED BY STUDENTS TODAY

Rev. Jenkin Lloyd Jones Declares That This Age Does Not Appreciate Meekness and Patience of Lincoln.
The serious-minded students of the past, as contrasted with the "rollicking members of the fraternities and societies of today," were praised in an address by Dr. Jenkin Lloyd Jones, the former Janesville pastor, before the Parents and Teachers' club of the Wendell Phillips high school at Chicago yesterday.
The address was on "Lincoln, the Sad Humorist of the Sangamon."
"The feeling of college-bred writers of this day is inadequate for interpreting the phases of the character in the sturdy pioneer," Dr. Jones said. "Men who measure by the standard of dollars and cents cannot understand the meekness and patience that went to make up the lofty character of the man who opened up the middle west."

Fujiyama Modernized.
The beautiful mountain peak of Fujiyama, which is regarded by the Japanese as little short of sacred, is to be modernized by electricity. For the benefit of tourists the mountain top and the trail to it will be illuminated by electric lights. Hotels and refreshment houses will be erected on the mountain slopes, as well as telephone and telegraph stations.

EDGERTON CHILDREN TO GIVE A CANTATA

Public School Pupils to Take Part in Entertainment at Royal Hall This Evening.

(SPECIAL TO THE GAZETTE)

Edgerton, Wis., Feb. 11.—An entertainment that appeals to all who have an interest in the public schools at Edgerton is the children's cantata to be given tonight at Royal hall. The affair is being staged by Miss Emily Well, one of the teachers, and undoubtedly will prove an entertaining event. The cantata, "The National Anthem," in three acts, is given in a melodramatic style, having judge, jury, lawyers and bailiffs, who will determine the contest of the bidders and the winner.

The fourth of a series of business men's banquets was held last night at a Carlton hotel. The question of the new wagon manufacture was the discussion of the gathering and proved of great interest.

BELVIDERE QUINTET
PLAYS HERE TONIGHT

Speedy Northern Illinois Aggregation Will Give "Cardinals" Good Rub for Honors.

A rousing good time with plenty of spectacular plays is what the fans are expecting in the basketball contest tonight between the "Cardinals" and the five from the Belvidere Y. M. C. A. The latter squad is one of the fastest in northern Illinois and according to all reports they move so quickly that a picture taken of them in play would result in a blur on the negative. They are exceptionally good in floor work and at bucket throwing are past masters in the art. Those who have seen the Belvidere bunch say that the "Cardinals" will get dizzy trying to keep track of their opponents. Just what the Power City quintet will be able to do against the visitors is a question. They travel in a speedy class, but they will have to "go some" to make a showing.

WOMEN THIEVES ARE AS BOLD AS THE MEN

New York, Feb. 11.—(Special to the Gazette.)—Hobbers Walked Out Unsuspected by Janitress.

New York, Feb. 11.—(Special to the Gazette.)—Certain crimes of a bold and daring nature have always been considered man's exclusive prerogative. It was the general belief that women lacked the courage and brazenness required for such crimes as highway robbery, burglary and acts of a similar nature. Recent events have clearly shown, however, that this belief, like so many of the ideas of the anti-suffragists, rested upon an underestimation of woman's ability. It plainly reflects credit upon woman's astuteness, that two crafty women succeeded in robbing a banker of a large sum of money while he was walking along a much frequented street. The other day two women, in broad daylight, entered a fashionable apartment on West 151st street while the janitress was absent, gathered up \$250 in cash and jewelry and silverware valued at \$2,000, and escaped, walking past the janitress, carrying their plunder under their bulging cloaks.

What makes the two women's daring even more remarkable is, that while they were in the apartment, robbing the place, the owner unexpectedly returned, without being able to scare away the thieves. They had locked themselves in and kept their toy in the lock on the inside, thus making it impossible for the owner or the janitor to open the door. The owner never suspected that there were thieves in his apartment, but believed that there was something wrong with the lock. He left the house for a short time, visiting his married daughter, and during his absence the two thieves unlocked the door and, carrying their plunder under their cloaks, walked down the stairs, past the janitress, and out of the house. No trace of them has been found.

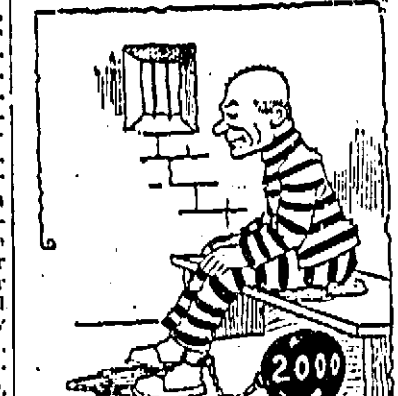

At one of the city high schools a prize contest in short story writing was arranged some time ago and many of the boys and girls submitted their literary efforts. One of the boys, with a defective ethical sense, had the audacity of copying a clever short story by O. Henry, the well known writer, and submitting it as his own work. That the fraud was not immediately detected and the plagiarist exposed is strange enough, but it is far more puzzling that the "cribbled" story was awarded the second prize. There are only two explanations possible of this remarkable decision of the teachers constituting the prize jury. Either the story turned in by the boy who was awarded the first prize had actually greater literary merit than the one written by Mr. Henry, which is highly improbable, or the jury did not know the difference between a good and a poor or at least inferior story. The latter explanation is undoubtedly correct and reflects discredit upon the literary taste and qualifications of the teachers.

The last meal at Rector's, the famous old hotel on Times Square, has been served and the numerous patrons of that renowned establishment will have to seek other pastures until the New Rector's is reopened about December 15 of the present year. The present building will be torn down and in its place a fine structure, seventeen stories high, will be erected. Mr. Rector will start for Europe shortly for the purpose of buying linen, silverware, and other restaurant and hotel equipment and his staff will devote the intervening time to studying European methods and importing new culinary ideas. It is reported that an asbestos trust has been formed and that within a short time the price of all asbestos products will be materially raised. The readers of certain yellow newspapers are afraid that the formation of this trust will lead to an increase in the price of asbestos paper and will eventually compel the owners of those sheets to raise the price of their "literary" products from one to two cents.

Jacob H. Schiff, the banker, who is also closely identified with all important Jewish charities in this city, delivered an address the other day in which he strongly urged the young Hebrews of New York to go west and south after their education was completed, "to build up the American empire in other parts of the country."

Many men who have made a careful study of the racial and economic problems of this cosmopolitan city fully agree with Mr. Schiff and so does nearly everybody else in this city, with the exception of the young Jews themselves, to whom this advice was given. The Interstate Bridge Commission has at last selected a site for the proposed Hudson bridge and has submitted its report to the legislature. The site selected by the commission upon the recommendation of the engineers is from West 170th street in New York to the Palisades in New Jersey. The bridge is to cost \$10,000,000. The site is said to have many natural and other advantages. The river is narrower there than at any point within the limits of Greater New York and the land is but little improved so that the land damages will be comparatively small. Robbing the so-called "quarter-masters" installed by the Gas company for the inconvenience of consumers has become quite a fad lately in this city. It is considered a case of robbing the robber and were it not for the fact that the practice is extremely dangerous for the occupants of the apartments in which the meters are located, nobody would worry much over this petty pilfering. The thieves who make a practice of robbing meters have been extremely reckless lately and forced the meters in such a manner that they allowed the gas to escape into the apartments. Several persons were overcome by the escaping gas and one of two have since died in consequence. Police Captain Timothy Murphy of the city hall station, New Jersey, was amazed the other morning to find a stranger in his private office, reclining on a sofa, reading a book and smoking one of the captain's best cigars. When he asked the man what he wanted, the intruder coolly asked him not to disturb him until he had finished the chapter he was reading. The captain, who admired the "cheek" of the man, acquiesced, but repeated his question after the stranger had finished his chapter and begun to make facetious remarks about him and cigars. As the intruder failed to give a satisfactory account of himself, the captain arrested him and took him to the first criminal court. There the prisoner said that his name was John Anderson, that he had no home and had come straight from Alaska. He was given thirty minutes to leave the city and remarked that twenty minutes was time enough for him to get out of that "hole of a town."

JET FILET FOR THE BLOND TYPE.

An artistic fillet of cut jet was designed recently for a famous beauty of the classic blond type, who conforming to the very latest regulation of fashion's mandates is wearing her hair in the wound or turban effect. To accomplish this, long strands of hair slightly waved are wound like wide ribbons, closely about the head, and around a crown of tiny puffs. Then the fillet of cut jet is placed about the head in Grecian style with pendant and ornamental dangling just over each ear.

SCIENCE NOTES

According to a London engineering publication a company has been recently formed to develop the waterfalls of Iceland, which represent a great power now going to waste. On account of this power and the great mineral resources of the country, Iceland seems to be a particularly favorable spot for many electro-chemical industries.

The Schaffland River Falls comprise the Gode Falls with 25,000 horsepower, the Alderjar Falls with 38,500 horsepower, the Barina Falls with 17,000 horsepower. The Laxan River Falls would produce 2,000 horsepower, the Sag Falls 20,000 to 25,000 horsepower, and the Gullfoss Falls 10,000 horsepower.

The use of fish in ponds to complete the operation of the purification of water, discharged from sewage reduction plants, has been tried with success in one or two places in England where the effluent is discharged into brooks which have such a very small flow that the sewage is a large proportion of the total volume of the brook below the outlet. Even when the degree of purification attained at the works is high, the water of the brooks sometimes becomes brown or less injured by growths of a low order of plant life, which is the result of the presence of the sewage. In some cases it is now learned by experience, such cases, if they are not kept down by the ponding of the brooks and raising fish in the ponds. These fish live on the plants.

After compressing processes, such as rolling or drawing, the tensile strength is raised to 35 kilograms to the square millimeter and the ductility is increased without any notable increase in its specific gravity. The new metal is silver white in color and lends itself to a brilliant polish.

The high pressure fire service of the city of New York is such a service, and that it is to be greatly extended, and at no distant date the city will have an installation of 21 miles of piping, equipped with the most elaborate devices for controlling and safeguarding the delivery of the water when demanded for the extinguishing of fires. There will be a duplicate arrangement of the piping so that should any accident interfere with its operation, the damaged section may be cut out and the water directed to the desired point in another manner. Valves will be all electrically controlled from distant points.

In the construction of the postoffice at Paris, Ill., a special form of concrete pile was made use of, which developed a larger bearing surface and a greater resistance to settlement in soft soil than is usually attained by an equal number of ordinary piles. The foundation comprises 241 concrete "postest" piles, 10 feet long, with a shaft 10 inches in diameter, and a large foot or pedestal integral with it and about four feet long or high and three feet in diameter, which develops a considerably greater bearing capacity of a straight 10-inch pile in soft ground. The method of construction involves the use of a steel core and concrete driven together to form and mold, with a cavity in which concrete is placed and mustered out at the bottom to form the pedestal by means of pressure applied at the top of the bearing. As the piles were driven about three feet apart on centers the enlarged pedestals were formed almost in contact, making a nearly continuous footing for the two.

A sweeping opinion.

A fool is one who gives advice to a wise man and thinks him a fool for not taking it.—Life.

That Postal Deficit

Postmaster-General Hitchcock reports that the Post-Office Department loses \$64,000,000 a year in the business of carrying second-class mail (magazines and periodicals).

There is not a deficit of \$17,000,000, as the department alleges, but actually a surplus of more than \$10,000,000, when the specific loss on free rural delivery is taken into consideration, and the department's figures of \$64,000,000 loss on second-class matter are wrong by more than \$60,000,000.

THE SATURDAY EVENING POST

for February 12th devotes its editorial page to this subject, showing the injustice of the recommendation to raise the rate on all magazines and periodicals—but not on daily papers or the country weeklies.

One fact: In the year ended June 30th, 1908, the weight of second-class matter compared to 1907 decreased 18,000,000 pounds. The postal expenditures increased \$18,000,000. There is something in it besides second-class matter.

Look for a dozen more facts in this week's (date of February 12th) number of THE SATURDAY EVENING POST.

PRIMARY BILLS WIN IN STATE SENATE

MEASURES PROVIDING FOR REFORM IN NOMINATIONS PASS HOUSE.

ONLY ONE DISSENTING VOTE

Direct Plurality System Will Apply to All State, Congressional, Municipal and Judicial Candidates—Commission Bill Passes Senate.

Springfield, Ill., Feb. 11.—The Illinois state senate passed the state-wide, direct plurality primary bill with only one dissenting vote and the primary reforms won with hands down.

Three measures designed to provide direct plurality nominations for all officers in the state except university trustees were passed by an overwhelming vote.

Outline of the Primary Act.

The primary bill as brought before the senate for final action provides for direct plurality nominations of all state, congressional, municipal and judicial candidates, including court clerks, trustees of the sanitary district and members of the state board of equalization.

It provides for an advisory vote on United States senator, with the distinct stipulation that such vote shall be considered in a state-wide aspect and not in accordance with the sentiment expressed in the several senatorial districts. The bill provides specifically that officers of party organizations need not be elected product committee.

The first primaries under this bill will be held on September 15, 1910.

Amendments to the House Bill.

The senate amended the house bill by replacing the section governing the qualifications of voters with the section in the bill passed by the senate two weeks ago. This section now provides in addition to the constitutional qualifications of voters that no one who has signed a petition for the nomination of a candidate for any party with which he does not affiliate and no person who has signed the nomination papers for an independent candidate for office to which nominations are to be made at the primary may vote.

For the benefit of qualified voters who may not be registered the bill provides that they may file with the board of election commissioners 20 days before the primary an affidavit showing that on primary day they will be qualified voters in the precinct in which they reside. A revision of the registry by boards of election commissioners is to be required 15 days before the date of the primary.

Legislative Officers Omitted.

This bill eliminates from its operation candidates for the general assembly, both senate and house, and all reference to choice of senatorial committees. Direct election of all other party committees by the people, however, is afforded.

The Gibson bill, to take care of nominations for house and senate, provides direct nominations for senators and also direct nominations for the house of representatives, with the stipulation in the latter class that the senatorial committee in each district be authorized to fix and determine the number of nominations to be made for the house in each district. Cumulative voting is to be permitted and provision made for the direct election of members of the senatorial committee.

EVIDENCE HURTS ALLOS CASE.

Bank President Presents Accounts Bearing on Bribery Charge.

Albany, Feb. 11.—The trial of the \$5,000 bribe which the state senate has heard was distributed among three legislators nine years ago by a representative of the bridge-building combination led back to its alleged source in the village of Groton. After the attorneys of Senator John P. Altia, whom Senator Benn Conger of Groton accuses of having received \$1,000 of this fund, had done their best to impugn the character and motives of Conger's chief witness, Hiram G. Moe, Conger put his brother Jay on the stand to substantiate Moe's story.

GIRL HAD "WITCHCRAFT SPELL."

Makes Serious Charges Against Her Mother and Brother.

Fond du Lac, Wis., Feb. 11.—Mabel Clomons, who is lying in a critical condition at her home here, charges her mother and brother with having forced her to take a poisonous potion because she refused to marry a Greek named Peter Mandella. The mother claims the potion was given the girl to rid her of a witchcraft spell. A physician at Ripon, Wis., is being sought by the authorities for giving the potion to the mother of the girl.

Indiana Editors Banquet.

Indianapolis, Ind., Feb. 11.—Senator Albert J. Beveridge was the guest of honor at the thirty-third annual banquet of the Indiana Republican Editorial association at the Claypool hotel last night. Addresses were made by the senator, Judge Oscar H. Montgomery of the Indiana supreme court and others. President Edwin A. Hany of Seymour presided. For the business sessions of the association today interesting programs were arranged.

Died from Rabies.

Springfield, O., Feb. 11.—Miss Carrie Meeker, the Franklin belle and rabies victim, died in Cincinnati en route to the Chicago Pastoral institute.

The Lesser Evil.

It is probably better for girls to be shot by rapacious authors than to marry them.—Portland Oregonian.

BROODHEAD

Broadhead, Feb. 11.—Mrs. John Swan of Monroe came to Broadhead on Thursday for a stay with relatives. Mr. and Mrs. A. H. Smith and family of Monroe were guests of the lady's parents, Mr. and Mrs. A. M. Bowen on Thursday.

Mrs. Wm. Shore and little daughter, Florence, who have been here visiting the lady's parents, Mr. and Mrs. Richard Robinson, returned to their home in Blue River on Wednesday.

There is to be an orchestra concert and the musical comedy, "The Wrong Wright," given by Monroe and Broadhead talent in Broadhead's opera house on Friday evening, Feb. 18. This promises to be a fine entertainment and there is sure to be a big house.

Lincoln day services will be observed next Sunday at the M. E. church, at which time the local G. A. R. post and W. I. C. will be present.

Mrs. P. Lyons is reported as very ill.

Mr. and Mrs. John Balfour have moved to Albany, where he has secured work.

The tea served by the gentlemen of the Congregational church last evening at the home of the Misses Sherman was quite a successful affair.

The United Cigar company is receiving tobacco here today.

Flack is in Chicago this week attending the automobile show and it is said expects to purchase one.

Miss Myrtle Hill has been on the sick list.

Chas. R. Stephens has just returned from a visit to Clarion, Iowa, with Mr. and Mrs. L. L. Kirkpatrick.

AFTON

Afton, Feb. 11.—Mrs. George W. Robb has accompanied her brother, Wm. Robb, back to North Dakota for a visit with relatives at Souris and Bottineau.

Mrs. August Hanscho is visiting friends at Whitewater.

Mrs. John Brinkman has returned from a visit with Chicago relatives.

Mrs. Lewis G. Saxe of Lima spent Sunday with her parents, Mr. and Mrs. William Denoyer.

Next Monday evening Mrs. Alfaretta H. Niver of Whitewater will appear at the Baptist church in the second number of the lecture course given under the auspices of the Men's club.

An important meeting of Afton Camp No. 2192, M. W. A., will be held at Brinkman's hall Saturday evening, February 12th, and each member is asked to be present, as business of vital interest to the camp will be considered. Installation of officers, postponed from the last meeting, will be one part of the business transacted.

The Ladies' Aid society have planned for a valentine social, to be held at the church next Saturday evening, Feb. 12th. The next regular meeting of the society will be held with Mrs. Nellie McCrea, Wednesday, Feb. 16th, at 10 a. m. The society is planning for a supper and sale at the church on the evening of Feb. 22d, details of which will be given later.

The Next Neighbors met with Mrs. Louisa Brinkman last Thursday and decided to hold a box social at Brinkman's hall on the evening of March 2d, for which a spirited program will be arranged.

Interesting and instructive talks by H. L. Skavlen and Horace Melroy of Juneau on Wisconsin mounds and stone implements were given at the regular fortnightly meeting of the Men's club, held last Thursday evening. Mr. Skavlen's talk was illustrated with maps and charts, showing mound groups around Lake Koshkonong and also the Afton group, while Mr. Melroy had specimens of stone implements, representing man's advance in workmanship in the creation of stone weapons, to properly illustrate his remarks. Both speakers were listened to with marked attention by those present, after which light refreshments were served.

Next Sunday evening at the Baptist church the topic will be "Afton's Greatest Need" as told "by one who knows." Come out and hear just what our village needs and see if you agree with the speaker.

W. J. Miller of Crookston, Minn., is back here for the transaction of business and for a visit among old friends and neighbors.

Miss Ella C. Vohling has returned from a protracted stay with relatives at Homer, Ill.

MORGAN TO OPPOSE BELL FOLKS.

Is Building Up Powerful Telephone Organization in Ohio.

Cincinnati, Feb. 11.—That J. Merpoint Morgan has not purchased the independent telephone interests in Ohio to convert them into properties for the Bell people, but that he is going to build up a powerful organization of telephone companies and run them in opposition to the Bell people, is the statement made by O. M. Hake, a prominent Ohio capitalist. He says that the Bell money did not buy the Cuyahoga Telephone Company, and Mr. Morgan intends to buy as many of these large concerns as he can and allow the local interests to operate the minor companies.

ROOSEVELT WILL VISIT POPE.

Report That He Will Take Part in Methodist Services Discredited.

Rome, Feb. 11.—The report that ex-President Theodore Roosevelt has promised to take part in the Methodist church services here is discredited by Mr. Bislet, the papal dome. He says: "Mr. Roosevelt has notified the Vatican of his intention to visit the pope; therefore it is taken for granted that he is prepared to abstain from acts likely to hurt the Pontiff's susceptibilities."

SEVER FRATERNAL RELATIONS.

Negroes Cause Dissension Between Oklahoma and New Jersey Masons.

McAlester, Okla., Feb. 11.—The Oklahoma grand lodge of free and accepted masons by unanimous vote here severed its fraternal relations with the New Jersey masonic grand lodge until such time as the latter repudiates its negro members. Mississippi masonic grand lodge recently severed its relations with New Jersey's grand lodge for the same reason.

ACCUSE PHYSICIAN: HEARING FEB. 17

C. C. HYDE IS ARRESTED IN CONNECTION WITH DEATH OF COL. SWOPE.

DOCTOR PLEADS NOT GUILTY

Gives Bond for \$50,000 and Is Released—Grand Jury Will Probe Into All Mysteries Connected with the Case.

Kansas City, Mo., Feb. 11.—Charged with the murder of Col. Thomas H. Swope, Kansas City's millionaire philanthropist, Dr. Bennett Clark Hyde was arrested here.

The complaint, which charged first degree murder, was signed by Johnson G. Paxton, one of the executors of the Swope estate and also one of its attorneys.

Dr. Hyde's bond was fixed at \$50,000 and it was furnished at his arraignment before W. S. Lear, justice of the peace in Independence. The preliminary hearing was set for Thursday, February 17.

Pleads Not Guilty.

When Dr. Hyde was arraigned, he arose and pleaded not guilty to the charge of murder.

The physician's bond of \$50,000 was signed by Fernando P. Neal, president of the Southwest National bank; W. D. Seruggs, a livestock dealer at the stock yards; H. F. Hall, William McLaughlin, of McLaughlin Brothers, horse dealers; John H. Lucas, one of Mrs. Hyde's attorneys and attorney for the Metropolitan Street Railway Company; Frank P. Walsh and John McLeary, Hyde's attorneys, and Dr. Hyde himself.

The warrant charging murder was served at four o'clock. Hyde's attorneys were notified at noon that a warrant for his arrest would be issued and were told to have their client at the criminal court building at four o'clock to be arrested. During the time elapsing between noon and four o'clock Dr. Hyde sat in the office of his attorneys and read.

Takes Arrest Coolly.

He did not seem to mind the thought of being placed under arrest and a charge of first degree murder placed against him. He chatted with friends and attorneys and called up his wife, who is a niece of Col. Swope.

The conversation with Mrs. Hyde was not a long one. He simply told her that he was to be placed under arrest, but that he would be home for supper.

All arrangements for the bond were fixed earlier in the week.

A special grand jury has been called to inquire into the death of Col. Swope. It will be convened Saturday.

It was made clear that the grand jury was not to be called to consider alone the death of Col. Thomas Swope, but the death of Christian Swope and all the other mysteries which have puzzled the county prosecutor's office and all others who have been engaged in the investigation. The coroner's inquest inquired only into the death of Col. Swope.

WOULD EXCLUDE ALL ASIATICS.

Congressman Hayes' Bill Aimed at Japanese Is Favorably Reported.

Washington, Feb. 11.—Congressman Hayes of California thinks he has solved the Asiatic exclusion problem. There was passed out of the house committee on immigration with favorable recommendation a bill introduced by Hayes which proposes to extend the exclusion laws so as to apply to "all persons who under section 2,169 of the revised statutes are eligible to become citizens of the United States, unless they be merchants, teachers, students or travelers for curiosity or pleasure."

This measure, of course, is aimed at the Japanese labor classes. Congressman Hayes makes no secret of the fact that this was his intention in presenting it.

POOLROOM BLOWN UP.

Place Known as the Hanover Is Shattered by Dynamite.

Cincinnati, O., Feb. 11.—The house known as the "Hanover poolroom," near Lawrenceburg, Ind., was blown up by dynamite last night.

Blizzard Prevails in Texas.

Dallas, Tex., Feb. 11.—The heaviest snow fall in the past 20 years is reported general throughout eastern Texas insuring a great fruit crop. Many points in northwestern, northern and central Texas also report heavy fall of snow. A blizzard prevails in the Pan Handle.

Will Curb Monopoly.

Winipeg, Man., Feb. 11.—At the opening of the Manitoba legislature the government announced, as a part of its program the purpose of establishing government owned abattoirs, to offset the high prices and monopoly created by a combination among meat packers.

Felt He Had Been Deceived.

A tale of a native "boy" from "Confessions of a Beachcomber." "A boy accustomed to see his master, the owner of a station, jump his horse over the gate instead of stopping to open it, tried to follow. The horse entered up grandly, seemed to gather himself for the jump and over the gate. As he picked himself up and shook the dust from his clothes he glared back at the horse, saying: 'You blurry liar!'"

French Fashion Rule.

Best of All Our Oranges and Lemons Are "Sunkist"

We pick, pack and ship over 20,000 cars of California oranges and lemons each season from our 5,000 groves. These are of varying grades. From all this vast quantity we select the finest—the superior grades—which we wrap in tissue paper bearing the famous "Sunkist" label so that you may know them as the choicest fruit. So be sure to get "Sunkist" oranges and lemons at your dealer's.

He has a fresh supply today. "Sunkist" oranges ripen on the tree. The warm California sunshine gives a tender, sweet pulp, matured and made exquisitely juicy by Nature.

"Sunkist" Navel Oranges Are Seedless. These oranges are distinct, full-flavor, thin-skinned. They are picked by gloved hands; thoroughly cleansed; wrapped in "Sunkist" tissue paper; packed carefully to insure firm, unbruised fruit.

How to Tell "Sunkist" Each "Sunkist" orange and lemon is wrapped in tissue paper upon which is printed the "Sunkist" label. Lemons or oranges without "Sunkist" wrappers are not "Sunkist" brand.

Free—Best Rogers' Orange Spoons—Send us 12 "Sunkist" orange or lemon wrappers and 6 two-cent stamps for postage, packing, etc., and we will send free, a Wm. Rogers & Son full standard, AA plate orange spoon. For each additional wrapper send 6 two-cent stamps and 12 wrappers. You can easily have a full set. Get a dozen "Sunkist" oranges or lemons and send for your first spoon.

The Chicago Tribune

The World's Greatest Newspaper.

Sunday after Sunday The Tribune has more pages, and more news, than any other Chicago newspaper. There are more pictures, more features, more helps, and more benefits in The Tribune at the same price.

There is a wealth of matter in The Tribune which no other paper has. Workers' Section is copyrighted and no other newspaper can print it without The Tribune's permission.

Household Hints is a woman's special part, exclusive with The Tribune. It tells how to make economies in housekeeping. Boys' and Girls' Tribune is another exclusive copyrighted feature. Hand this section over to the little ones. It will busy them for an hour. Metropolitan Section—studies of city life—are original with The Tribune and printed exclusively by it.

The Tribune alone uses all the best newsgathering agencies in the world. It has its own correspondents at every important center. You get all the news of the world, when you are a regular reader of The Tribune.

WITH the coming of Spring there is always a considerable activity in our Dress Goods Section. Hundreds of women depend upon The Big Store to show the newest and best things marketed each season, and because of our enormous buying power, most big mills are willing to sell us exclusively in Janesville. In this way we usually get the best there is out and can generally get the best quality for less than those who buy but small lots. This is one reason why "We Keep the Quality Up." There is also the great satisfaction in selecting your goods from a stock large enough to take in most everything good. We mention some of the good things just in, made by the celebrated Brodhead Worsted Mills, but each day brings additional shipments.

SCIENCE NOTES

The value of steel with a coating of copper has been appreciated for some time, and efforts have been made to secure such a combination with a very different degree of success. Recently this is said to have been achieved. A steel billet properly treated is immersed in a bath of specially prepared copper at so high a temperature that the surface of the billet is partially dissolved. This copper is so fluid that it readily impregnates the outer portion of the steel, and when the billet is withdrawn an alloy film of copper and iron is found on the surface. The alloy is next placed in a mold, great care being exercised to prevent the destruction of the alloy film by oxidation, and a final coating of pure copper, which readily seals to the previously alloyed surface, is cast around it. In this way the two metals are so firmly united as to withstand sudden temperature changes, shock or stress.

In experimenting with the use of cement for the construction of tanks designed to receive wines in storage, it was found that when utilized tanks were used the cement in the liquid often absorbed the freshness and "bouquet" of the wine. Acid-proof coatings were applied to the concrete walls, but did not prevent absorption, however, a lining consisting of small squares of glass, joined with cement mortar, is said to have given satisfaction, as a tauter form on the thin surface of cement and resists acid attacks. The lined tanks are made in sizes which range from 250 to 10,000 gallons, and are recommended not only for storing wines, but also for storing cottonseed and other oils.

A new process of keeping eggs in cold storage, according to the Scientific American, 200 eggs are packed in a tin box, and a little calcium chloride is added to insure dryness. A one-half inch hole is drilled in the bottom of the box, and the box, with a number of others, is placed in a large iron cylinder, from which the air is then exhausted. By this operation the air and carbon dioxide, as well as the albumen are removed, dissolved in the air which surrounds the eggs and fills their voids. The cylinder is next filled with pure carbon dioxide, and a pressure slightly above that of the atmosphere is maintained until the constancy of the manometer indicates that the eggs are saturated with the gas. But as eggs do not keep well in pure carbon dioxide, a certain quantity of this gas is next withdrawn from the cylinder and replaced by nitrogen, obtained either from the cylinders in which it is sold, or by passing air over red-hot copper. When the eggs have become saturated with the mixture of gases the boxes are removed from the cylinder, sealed and placed in rooms where the temperature is kept between 32 and 36 degrees F. By this process the eggs are kept in an atmosphere which contains no free oxygen, and in which the proportions of carbon dioxide and nitrogen are the same as exist in the albumen of fresh-laid eggs.

What is believed to be the largest single shipment of steel ever made was a recent order which was recently filled by the Bethlehem Steel Works. Within 24 hours after receipt of the order this great mass of structural shapes was loaded on 40 specially built pressed steel cars, making a train one-third of a mile long, hauled by two huge locomotives.

**SKI TOURNEY AT
STOUGHTON SUNDAY**
Triple Jump and Jump to Break the
Hill Record of a Hundred and a
Half Feet Will Be Features.
(SPECIAL TO THE GAZETTE)

Stoughton, Wis., Feb. 11.—The third
ski tournament of the season will be
held in this city Sunday afternoon
under the auspices of the Stoughton
Ski club. Prizes will be offered to
the best skiers. The events to be
held will be the professional contest,
amateur slide, twin jump, longest
standing jump and jump to break the hill
record of 100 feet which was made
on Jan. 25 by Alfred Nelson of this
city. The triple jump will be the
feature event of the afternoon al-
though the jump for hill record and
longest jump contests will prove to
be exceedingly interesting to specta-
tors. The slides will start at 2:00 p.
m. A number of outside skiers are
expected to compete with the local
men. Among them will probably be
representatives from Chicago, Beloit,
Racine, Rockford and Janesville.

**BUYING MOVEMENT
IS SLACKING AWAY**
Leaf Dealers at Present Are Making
Little Effort to Increase
Their Holdings.

The buying movement, according to
the Edgerton Tobacco Reporter,
seems to be gradually slackening away
again for the dealers are now making
but little effort to increase their hold-
ings, though scattering sales are still
the time being made around late quot-
ations, which seldom equal the earlier
prices. Receiving, however, is
going forward as rapidly as storage
facilities and with less friction than
a few weeks ago. Scarcely over one-
third of the purchases have been taken
in as yet.

The market for old leaf has devel-
oped but little news of importance,
the demand is largely for cheap
grades that turn little or no profit to
packers. We learn of the sale of
about 700 cases of damaged '90 from
update packers for account of a man-
ufacturer of stripped stock. Teisberg

& Moen report the sale of 128 cases
of '98.
Warehouse handling is progressing
quite satisfactory, but more help
could find employment in this mar-
ket. F. J. Colman will open a seed
and sorting room in the Conway ware-
house Monday.

The shipment out of storage reach-
ing 1200 cases and 15 cars of burlap
from this station to all points for the
week.

PILES CURED IN 6 TO 14 DAYS
PAZO OINTMENT is guaranteed to cure
any case of itching, lined, bleeding or
protruding piles in 6 to 14 days or money
refunded. Price 50c.

**EDGERTON PASTOR WALKED
TO MILTON JUNCTION**

Rev. C. K. MacInnis, Had Date to
Speak at Revival Meeting and
Kept It Despite Late Train.
The Rev. C. K. MacInnis, pastor
of the Methodist church in Edgerton,
was to have charge of the revival
meeting at the Milton Junction Meth-
odist Episcopal church on Wednesday
and was to arrive on the 8:40 train.
He learned that the train was two
hours late and started to walk the
eight miles distance a little late
and perspiring like a race horse, but
found the congregation anxiously
waiting his coming. Considering the
quality of his sermon the Rev. Andrew
Porter said, "It would be better if
more ministers took to walking."

Madison, Wis., Feb. 11.—Governor
Davidson quietly celebrated the fifty-
sixth anniversary of his birth on
Thursday. He forgot that it was his
birthday until some friends called on
him at the executive office in the after-
noon and offered congratulations.
Then other friends followed and be-
fore night the executive office repre-
sented a reception chamber. The gov-
ernor said his health was never bet-
ter.

Population of the Earth.
It is probable that the population
of the earth has doubled since 1800.
says the St. Louis Post-Dispatch. No
one knows within 10,000,000 of what
it is in 1909, but no doubt the figures
just published by B. L. Putnam Venable
are as good as any other. He gives
a grand total of 1,655,000,000. Of
these only about a third, or 546,000,
000 are white, with 85,000,000 in
North America and 452,000,000 in Eu-

As everyone knows, C. W. Post of
Battle Creek, Michigan, is not only a
maker of breakfast foods, but he is a
strong individualist who believes that
the trade-unions are a menace to the
liberty of the country.

Believing this, and being a "natu-
rally" scraper for the right, as he says
it, Post, for several years past, has
been engaged in a conscious warfare
against "the Labor Trust," as he likes
to call it.

Not being able to secure free and
untrammeled expression of his opin-
ions on this subject through the regu-
lar reading pages of the newspapers,
he has bought advertising space for
this purpose, just as he is accustomed
to for the telling of his Postum "story,"
and he has thus spent hundreds of
thousands of dollars in denouncing
trade-unions.

As a result of Post's activities the
people now know a whole lot about
these organizations; how they are
honeycombed with graft, how they ob-
struct the development of legitimate
business, entangle labor's outfit, hold
up manufacturers, graft upon their
own membership, and rob the public.
Naturally Post is hated by the trade-
unionists, and intensely.

He employs no union labor, so they
can not call out his men, and he does
their efforts at boycotting his products.
The latest means of "getting" Post is
the widespread publication of the story
that a car which was recently wrecked
in transmission was found to be
loaded with empty peanut shells,
which were being shipped from the
south to Post's establishment at Bat-
tle Creek.

The car could probably originated with
President John Fitzgerald of the Chi-
cago Federation of Labor, who, it is
said, stated it publicly, as truth.

Post comes back and gives Fitz-
gerald the lie direct. He denounces
Fitzgerald's statement as a deliberate
falseness, an underhanded and coward-
ly attempt to injure his business, hav-
ing not the slightest basis in fact. As
such an effort it must be regarded, in
his opinion, as being "a lie."

In the wide newspaper publicity, in the
"patent" of a custom country
paper I find it, and the inference im-
posed is that labor-unionists are in-
tensely spreading the lie.

An institution for a man which will
resort to such a method of attack and to
physician forces that will destroy ma-
chinery and burn buildings, that will
maim and kill if necessary to, effect
its ends, naturally would not hesitate
to spread falsehood for the same pur-
poses.

We admire Post. While we have no
enmity toward labor unions, so long
as they are conducted in an honest,
"live-and-let-live" kind of a way,
we have had enough of the tarred end
of the stick to sympathize thoroughly
with what he is trying to do. He de-
serves support. A man like Post can
not be killed, even with lies. Again
we are a booming, every time. Again
we know, for hasn't this weapon, every
weapon that could be thought of, been
used (and not simply by labor unions)
to put us out of business too?

I am going to drink two cups of Post-
um every morning from this time on,
and put myself on a diet of Grape-
Nuts, Bully for Post!—Editorial in
The American Journal of Clinical
Medicine.

**SUGAR OFFICIAL GOES TO
PRISON FOR TWO YEARS**
Declares He and Four Others Were

"Higher Up."

New York, Feb. 11.—In broken tones
and apparently near to tears, Oliver
Spitzer, former chief superintendent
of the American Sugar Refining Com-
pany's plant at Williamsburg, while
arrangements were being made to
take him to Atlanta, Ga., to serve two
years for his part in the recent ex-
tensive sugar weighing frauds, ar-
ranged his former employers in these
bitter words:

"The sugar trust made a scape-
goat of me. It deserted absolutely.
It pounded and ruined me after I
served it faithfully for 29 years.
"In the alleged fraud prosecution
the government cried for a victim,
and the sugar trust answered by
sacrificing me and four of its most
valuable men."

HOMEGATHERING AT
THE CONGREGATIONAL
CHURCH LAST NIGHT

Corridor Welcome to Dr. David Beaton
and Family—Membership Totaled
823 at Close of Past Year.

Last evening the annual "home-
gathering" of the Congregational
church, a yearly business meeting
and social occasion was held in the
parlors of the church. There was ad-
ditional attendance to the gathering
this year because one of its purposes
was the extension of a cordial wel-
come to Dr. David Beaton, the new
pastor, and his family. Over six hun-
dred people attended the banquet,
among the number a large number of
former members of the congregation
from out of town.

Following the report a short pro-
gram was given in the auditorium.
Dr. Beaton made a brief address and
H. C. (Belt) Truman, read the report
of the nominating committee. Its re-
commendations were adopted in the
election of officers of the church for
the coming year. H. M. Dedrick suc-
ceeds S. B. Lewis, who has moved to
California, as senior warden and C. H.
Lange takes Mr. Deirick's place as a
junior deacon. The other officers were
elected as follows: Junior deacons—
A. M. Fisher, W. S. Joffis, and
George Davis; church clerk, John M.
Whitehead; treasurer, Miss Susan A.
Jeffers; Sunday school superintendent,
J. A. Craig; historian, Mrs. Roy Pal-
mer; auditor, E. D. McGowan; Sunday
school committee—A. E. Matheson,
Mrs. Fanny H. Wright and S. C.
Cobb.

Mrs. Roy Deaton gave a history of
church affairs during the year 1909.
An important event was the resigna-
tion of Rev. R. C. Benson, pastor for
twelve years, and the election of Dr.
David Beaton to fill his place. There
were fourteen marriages during the
past twelve months and seven chil-
dren, five of them boys, were born to
members of the congregation. In her
report she included a letter from
Rev. Mr. Deaton extending greetings
to his former congregation.

The general session of the church
including the various societies and
the Sunday school was read by Clerk
John M. Whitehead. The total mem-
bership was 823 at the end of the year
1909, a gain of 50. Deaths caused a
loss in membership of eleven. The
financial condition of the church and
the societies is flourishing. Dr. Be-
nton delivered an interesting address
on the work of the church and of all
the churches together, and of the good
that could be accomplished. He spoke
of the equality of all classes in the
church, stating that that equality was
an ideal of citizenship. At a future
meeting an installation service will
be held and speakers from Chicago
will take part in the exercises.
